

Call for Papers within the Special Session

Decision Making Modelling and Risk Assessment

**at the 5th International Conference on Economic Cybernetic Analysis:
Efficiency of Social and Economic Anti-Crisis Policies
May 14-15, 2010, Bucharest**

Session organizer: Cristina Fulga, Academy of Economic Studies, Bucharest

Dear Colleagues,

As organizer of the Special Session *Decision Making Modelling and Risk Assessment*, I am pleased to invite you to present your work within our session.

This session will provide an open forum for the dissemination of the up to date research progress, innovative modelling approaches and original research results. The generic topics include: *Decision Making Modelling, Financial Optimization, Risk Theory and Uncertainty Modelling, Risk Assessment Approaches and Methodologies, Risk Database and Software Development*. The session will focus on, but not limited to the announced topics, and all papers in related fields are welcome.

In case you plan to present a paper within our session, please let us know and submit the title and abstract of your contribution by 4th April 2010 at romanm@ase.ro (papers need to be prepared according to <http://www.asecib.ase.ro/simpozion/2010/simpozion.htm>).

All accepted papers will be published in the Conference Proceedings, under ISBN reference at Academy of Economic Studies Publishing House, on CD-ROM support. The best papers presented at the conference will be considered for publication in *Economic Computation and Economic Studies and Research* (included in ISI Thomson Reuters Master Journal List).

Important dates:

Abstract Submission: April 4, 2010
Authors Registration: April 30, 2010
Authors Notification: April 16, 2010
Paper Submission: April 30, 2010
Conference Dates: May 14-15, 2010
